

## **CST AWARDS AT THE 77th CANNES FESTIVAL**

*With the support of AFDAS, CIRCAD, Polyson Postproduction and Publiciscinémas*

Cannes, May 25th, 2024 - The CST - Commission supérieure technique de l'image et du son, is proud to present its award list for the 77th Cannes Film Festival. Over the years, the award list has reflected the importance of the creative and technical know-how of all cinema technicians. Two winners are rewarded for the quality of their technical gestures in the service of the vision defended by the director.

The winners :

- CST AWARD for Best Artist-Technician goes to Daria d'Antonio, cinematographer on Paolo Sorrentino's *Parthenope*.
- CST AWARD for Best Young Female Film Technician is awarded to Evgenia Alexandrova, cinematographer on Noémie Merlant's *The Balconettes*.

Created in 1951, the "Grand Prix Technique", which rewarded a body of work for its technical prowess, evolved into the "Prix Vulcain de l'artiste-technicien" in 2003, to be awarded by name to a technical artist. In 2019, it becomes the "CST AWARD for Best Artist-Technician".

The CST AWARD for Best Young Female Film Technician works to promote professional equality between men and women in the film industry, and affirms the CST's desire to give visibility to the high-quality cinematographic work produced every year by young female technicians. This is the third edition of the award.
